

Entwistle Single Coil Pickup Dimensions

All measurements are in millimeters (mm)

The plastic pickup cover is common to the pickups shown and are interchangeable.
Black covers are available and show the Entwistle logo but not the model.

The string pitch from the centre of the first string pole to the centre of the sixth string pole is 52mm in all cases with the exception of the ASN57 neck pickup which is 50mm.

* XS 62 is 5.2mm (ceramic)
XS 62N is 3mm (neodimium)
